Sticky nightshade community session

How do I manage sticky nightshade?

Keen to know more?

Join us to gain a better understanding of this weed that is rapidly spreading along our waterways and paddocks.

Learn more about how it grows and spreads, options for control and progress of the Cadia District Community Sticky Nightshade Project including trial results, biological control development and distribution mapping.

On the day you'll hear from the NSW DPIRD weed research teams, Bullseye Ag, PY Agronomy and council weed officers.

There will also be an opportunity for landholders to share their experiences with sticky nightshade and chat with the project team.
